PROFESSIONAL SUMMARY

Software Engineer with 4 years of progressive experience in software development, API integration, quality assurance, and data analysis. Skilled in MuleSoft, Java, SQL, automated testing, and REST API testing. Proven ability to deliver reliable solutions, collaborate with cross-functional teams, and support business goals through high-quality software and data-driven insights.

TECHNICAL SKILLS

Programming Languages

- Java
- Kotlin
- LPL
- SQL

Testing & QA

- Manual Testing
- Automation Testing
- API Testing
- Selenium
- Cucumber BDD

Development Tools

- Android Studio
- Visual Studio
- Git
- Postman
- Jira

Integration & Platforms

- MuleSoft ESB
- REST APIs

Analytics & Tools

- Power BI
- Microsoft SOL

Others

- Agile Methodologies
- Arduino

PROFESSIONAL EXPERIENCE

Software Engineer

INFOR

2023 - 2025

- Designed, developed, and maintained high-quality software solutions for HRM Payroll systems.
- Collaborated with cross-functional teams to analyze requirements and translate them into effective technical solutions.
- Conducted debugging, manual testing, automated testing, and API testing to ensure software quality and reliability.
- Performed code reviews and supported continuous improvement of application performance.

MuleSoft Developer / QA Engineer

Collabera Digital

2022 - 2023

- Designed, built, and optimized APIs and integrations using MuleSoft to ensure seamless system communication.
- Created and executed test plans, test cases, and test scripts for API and application testing.
- Performed manual and automated testing using Selenium to validate system functionality across releases.
- Collaborated with development and QA teams to ensure high-quality deliverables.

Data Analyst

Datascopes Communication Phils Inc.

2019 - 2022

- Collected, organized, and analyzed large datasets to extract meaningful insights.
- Created reports and dashboards to support data-driven decision-making.
- Presented data interpretations to stakeholders, improving communication and business strategies.

EDUCATION

Bachelor of Science in Computer Science

Eulogio Amang Rodriguez Institute of Science and Technology (EARIST)

2015-2019

CERTIFICATIONS

- | | |
|--|--------------------|
| • Basic Gizduino and Arduino Compatibility | September 17, 2016 |
| • Android Application Development | September 24, 2016 |
| • iOS Development | September 24, 2016 |

PROJECTS

Mobile-Based Inventory and Monitoring System for Computer Peripherals (Android)

- Developed a mobile attendance application for thesis project using Java and Android Studio.
- Implemented to manage, monitor, and track computer peripherals such as keyboard, mouse, speaker, etc.
- Improved provides inventory tracking, stock monitoring, item management, and reporting features.
